## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Arnold M. de Guzman (Reg. No. 39,955) on 10/22/07.

The application has been amended as follows:

Cancel claim 14 without prejudice.

Claim 15, line 2, change "of claim 14" to -- of claim 13 --.

For claim 13, the amendment of claim 13 would be shown below:

Claim 13 (Twice Currently Amended): An assembled substrate, comprising:

a substrate having a first side and a second side, and a first electrical contact area on said first side and a second electrical contact area on said second side;

an electrical component having a plurality of leads electrically connected to said first electrical contact area of said substrate; and

a capacitor plate electrically connected to said second electrical contact area on said second side of said substrate substantially opposite said first electrical contact area of said substrate;

wherein the capacitor plate has a selected capacitance value that provides decoupling capacitance to the leads, and wherein each ground plane in the capacitor plate is disposed between a first pair of dielectric layers and each power plane in the capacitor plate is disposed between a second pair of dielectric layers, and wherein a first contact pad is connected to the ground plane and a second contact pad is connected to the power plane, and wherein the capacitor plate comprises a top surface that includes a first dielectric layer and a bottom surface that includes a second dielectric layer,

**wherein said assembled substrate further comprises:**

**a first interposer between said component and said first electrical contact area on said first side of said substrate; and**  
**a second interposer between said capacitor plate and said second electrical contact area on said second side of said substrate.**

***Allowable Subject Matter***

2. Claims 13, 15-20, and 30-33 are allowed (renumber claims are 1-11).

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or obvious in combination of an assembled substrate having a first interposer between said component and said first electrical contact area on said first side of said substrate; and a second interposer between said capacitor plate and said second electrical contact area on said second side of said substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Dinh whose telephone number is 571-272-1929. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gutierrez F. Diego can be reached on 571-272-2245. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
